

R.C.A.F. Trenton Power and Sail Squadron

Twoney Tuesday

March 13, 2018

7 p.m. CFB Trenton Yacht Club

BOAT MAINTENANCE

It is getting near that time when we can begin taking the tarps off the boats and getting them ready for another season of boating. A major task of spring is boat repair. What should we do, what must be done, how should we do it and who out there can offer us assistance with our questions.

Rick Tinga, well known to CFB Trenton Yacht Club and RCAF Trenton Power and Sail Squadron members, will be providing us with those answers. **His presentation will cover everything from anodes to zippers-26 topics in all.**

This should be a great evening providing very timely information for both power and sail boat owners. Rick has done a great deal of work on most of the boats in our club.

Please come out, meet Rick and avail yourself of our resident expert in all things boat maintenance. Bring your questions. Rick will provide the answers.

John Brewster
RCAF Trenton Squadron
Education Officer/Past Commander
